FlyingBanner **S**mall CHF 245.-

Medium CHF 285.-

Large CHF 335.-

Remarkably different

If inside or outside: The „Flying Banners“ are special eye-catchers. Available in the sizes Small, Medium, Large with variable bottom attachment for secure hold.

For outdoors we have an optional steel plate or cross footing available. There are two different attachments for the steel plate available; the simple aluminium bolt and the stainless deluxe bolt. The stainless deluxe bolt is equipped with a high quality ball bearing which allows the system to turn smoothly in the wind.

New: FlyingBanner S/M/L for indoor usage with a small cross footing instead of ground pegs. Everything fits in one bag and the additional cost for the ground plate is voided. Bigger series: price upon request.
